Fall 2018 Instructor: _____

Code Contributions will be evaluated across the following guidelines.

	Exemplary	Competent	Needs Improvement	Score
Program Design	1 Solution fully planned out	.5 Solution partially planned out	0 ad hoc solution; program seems to be "designed at the keyboard"	
Program Execution	1 Code produces correct output 100% of the time.	.5 Code produces correct output most of the time	0 Program does not compile/load/render	
Specification Satisfaction	1 Code satisfies specification completely and correctly	0 Code satisfies the core specifications	0 Code does not satisfy any of the specifications	
Coding Style	1 Well formatted code, appropriate use of language capabilities	.5 Code hard to follow in one reading, poor use of language capabilities.	0 Incomprehensive code, appropriate language capabilities not used
